Dick Orndoff has been an Executive Manager in both the public and private sectors, working in managed care and behavioral health services. As the COO of the Public Sector Division for Magellan Health Services, he had P&L responsibility for all of their Medicaid managed care contracts in 12 states. In this position, he grew the Public Sector Division to \$.75B division, representing more than 65% of the overall corporate revenue. Dick provided oversight for both clinical and administrative operations, . He set the strategic direction for the division, formulating and evaluating operational concepts, new services and strategies for achieving effective results.

After leaving Magellan Dick and worked as a consultant, and served as SVP for Business Development at Comprehensive Neuroscience, where Dick was responsible for pricing, operations, sales, and account management for a behavioral pharmacy analytics company.

Prior to that Dick worked for the New York State Office of Mental Health as one of the top 25 executives in a department with a budget of \$4B. Dick's experience in the public and private sectors with implementation of new initiatives and large system management brought him to the world of start up organizations, where Dick has led corporate operations and product development from design to launch. He has extensive experience in all phases of management including administration, planning, direct operations, legislative relations, and budgeting. Currently Dick is a principal with Boughtin and Orndoff Consulting. ([www.boughtinandorndoff.com](http://www.boughtinandorndoff.com))

Dick, a Vietnam veteran has his BS and M.Ed. from Penn State University.
